

WELCOME

As a family-run business celebrating 25 years in Borough Market, we are looking thoughtfully ahead at each and every way in which we can continue to build on our expertise in championing locally sourced, British produce across our menus.

Wine has been made in England since the medieval times but it wasn't until the last few decades that the climate has allowed our vineyards to be globally recognised for our quality, sustainability and consistency in winemaking.

We've been on an exciting journey (and tasted lots of wine!) to build a list that includes a strong English offering to sit alongside our closest neighbours in France. We hope you will join us in discovering the exceptional varieties of wine being produced on our own shores.

TRACEABILITY

We are committed to lowering the journey time our seafood takes from when it is caught to when it arrives on your plate, ensuring the freshest quality possible.

The majority of our fish and seafood is sourced directly via auction from Brixham Fish Market in Devon. Buying in this way gives us 100% traceability to the boat from which it was caught each morning and means we can get fish from the sea to your plate in less than 48 hours.

By working with highly regarded suppliers and fishermen with the strictest welfare standards, we can ensure our fish is sustainably caught.

The beauty of sourcing with seasonality in mind is that we can explore a wider range of fish species available within our shores, and change our menus more frequently to reflect that!

..... Our mission: less than 48 hours from sea to plate
